

## Vision and determination keys to success

PN-MEP Simon Busuttil said that vision and determination were key ingredients for success.

He was addressing a public discussion organised by PN-MEPs last Sunday at Mosta parish square with the theme "Familja Wahda" (One Family).

Dr Busuttil said that success required a strong sense of determination on the part of each and every individual, but equally a Government that pursued a vision that enables us to widen our horizons.

This was the case, he said, with EU membership which enables us to exploit new benefits and opportunities ranging from EU-funded projects to cheaper flights and to new jobs in sectors such as the financial services sector and the online-gaming industry which recently registered the 250th company since EU membership.

*"EU membership requires the determination of each individual to make the best of it. But equally, it required a Government with a vision to help us get there."* Dr Busuttil said.

Dr Busuttil said that on the occasion of the 50th anniversary of the European Union, on 25 March, we should feel proud to be part of the European family of nations.

*"Malta will be celebrating this anniversary as part of the premier league and not the second division."* he said.

Simon Busuttil praised local councils, like Mosta, for successfully tapping European youth, cultural and inter-regional funding programmes for the benefit of their local community.

The debate was also addressed by Parliamentary Secretary Edwin Vassallo and PN MPs David Agius, Dr Michael Axiak, Dr Jeffery Pullicino Orlando and Dr Joe Cassar.
